Coaches/Sponsors,

As you know the OSSAA board of directors voted not to pass the restricted plan to re-open athletic facilities, which means as far as the OSSAA is concerned we refer back to the OSSAA blue handbook for guidance on what is allowed and what is not. The decision on what schools will do is left up to the local school district.

As we begin to open our facilities back up starting June 1, 2020, we are going to put in place some guidelines in order to best protect the health and well-being of our students and staff members.

- Temperature checks for all staff and student athletes will be conducted before they are allowed to enter any facility. Those temperatures will be recorded daily and kept for record. Any person with a temperature registering 100.4 or above will be sent home.
- Hands must be washed or sanitized prior to entering the facility and at the end of each workout.
- Coaches and/or sponsors will disinfect facility after each workout.
- Locker rooms will be cleaned daily at the end of the workout.
- We will work to social distance according to size of facility and number of athletes, limiting number of people in one small area.
- No sharing of personal equipment, water bottles, towels, etc.
- No team camps, practices, leagues, or games will be allowed as provided by OSSAA blue book. Non-Hilldale students or staff on campus is prohibited.
- Each sport will be allowed to have their own camp, which will only include our student-athletes. The camp will have to be completed in the month of June. No camps after June 30, 2020.

This will be our plan until June 30, 2020 or until things change with COVID-19. We will continually monitor the situation and make changes as needed. We believe this plan gives us the best chance of returning to some kind of normalcy beginning in the fall. Thank you for your help in this matter. Remember the safety of our student-athletes and staff is most important during this difficult time.
